“At Decorex 2023 we launched a hugely successful collection with the artist, Nat Maks. It has been a very positive show for us this year with a great response to the new, „Suminagashi“ collections. We’ve had some really good conversations and made great new connections as well as seeing a lot of familiar faces. The atmosphere is optimistic – really positive, very friendly and it feels like the show is finding its feet again after its move to Olympia.”
